EXPERT'S VIEW

"ALFA NERO stands as one of the most iconic superyachts ever delivered by Oceanco, distinguished by her bold Nuvolari-Lenard design and commanding 81m presence. Her innovative aft pool (which transforms into a helipad) was a groundbreaking feature that reshaped beach-club design across the industry. Inside, she offers vast volumes with exceptionally well-resolved guest circulation, combining grand entertainment areas with refined privacy. The yacht's engineering pedigree and robust technical platform further underline her long-term reliability and performance. Even nearly two decades after launch, ALFA NERO continues to enjoy strong market appeal, recognised globally as a collectible flagship yacht of enduring prestige."

*Not for sale or charter to US residents while in US waters
